

Who will lead GMAS?

We are hiring a first ever part-time Executive Director!

Green Mountain Adaptive Sports has been volunteer-led since its founding in 2010. Over the past decade, our programs, reach, and events have grown exponentially. We are currently in a strong organizational and financial position and *are excited to take the next step in our evolution!*

We are seeking a dynamic, experienced, part-time Executive Director to lead Green Mountain Adaptive Sports into its next chapter of growth and impact.

Applications are now being accepted through March 31, 2026. Please submit a letter of interest and resume to info@greenmtnadaptive.org.

2025 Year in Review

2025 has been an incredible year for Green Mountain Adaptive Sports and we are so proud of all we accomplished to serve our community!

Our adaptive sport programs continue to grow, both in the number of participants and in the locations we serve. Our coaches pursue more professional accreditations and gain valuable experience than ever -- the good stuff they can bring back when working with our athletes. Additionally, something especially important to us and central to our model, we continue to build strong partnerships with other adaptive programs and local sports facilities. We can't wait to see what's in store for 2026!
